

Anglo-Saxon Necklace

This amazing object is from Anglo-Saxon times. It is made from expensive gold and has rare and exotic stones in the middle. Fancy!

Craft Idea: Create your own jewellery out of things you have at home! These could be from beads, sequins or you could even use cardboard!

The Anglo-Saxons lived in England over 1,000 years ago. The name for Saxon Southampton was **Hamwic** and it was an important trading town.

The beautiful necklace was discovered in the grave of a young woman!
